March 2004

President's Letter

The Millers Island Community Association will be working on goals and objectives this year for the association as well as the community. At our March meeting future projects will be our emphasis of this meeting. As I stated in February's newsletter I would like community input on this matter. We, the association need to know what it is you the community would like to see, do, or participate in this year. On that note I would encourage all of you to complete the survey mailed to each of your houses from the North Point Peninsula Community Coordinating Council. This survey is to encompass the entire peninsula so get your ideas out there. Think of improvements or additions or maybe even deletions of something in our community that you would like to see. Also consider ideas anywhere on our peninsula. Change does not have to be bad, evasive or intruding. Think of it as changes for the better. We will be having an idea board at this meeting and I would like you all to bring your ideas to be posted on this board. It is optional for you to add you name and address to your idea. As long as we get the ideas is our goal in this matter.

Millers Island Meeting Sign

Rebuilding of our community sign. I've started to purchase the materials to recreate our meeting sign. I hope time permitting this project will be finished in the near future. Thanks to Mickey Scherr for the monetary donation making this project possible. Thanks Mickey.

and Millers Island Blvd. 7:30 AM—3:30
PM

2005 Community Conservation Grant

The community association will be applying for a 2005 Community Conservation Grant this year for 2005. The grant will be for the entrance garden located at Northpoint Rd. and Millers Island Rd. We will be requesting new garden timbers, mulch, plantings, and top soil. The entrance garden committee will be working on this project and could use some help. If you're a gardener and would like to assist in this project please contact Terri and Sharon Kline. You may also advise any of the board members at the community meetings. We would love your input and help on this project.

3rd Street Canal

This is not a forgotten issue. We intend on re-visiting this issue. However, due to tropical storm Isabel all projects involving the Chesapeake Bay have been halted at this time. As you know I was working on a project that would turn our unsightly 3rd Street Canal into a beautiful aquatic garden. I am told that due to the storm there are more critical issues pertaining to clean-up of the Bay at hand at this time. We will be patient at this time and just make sure that we are not forgotten.

Community Association, Residents and Businesses all working together.....

This year the associations most important goal is to unite all of us together. Support each other and work as a team. Everyone needs to be involved. I believe we have the best community in Baltimore County. The association will work with the businesses this year in supporting their community events like The Islander's Easter Egg Hunt and breakfast with the Easter Bunny. The New White Swan's Halloween Party. Why compete, we are all trying to achieve the same thing, community spirit. So expect to see different events this year being sponsored and co-sponsored by not only the community association but the business as well. We also invite and welcome the Dock of the Bay and Bay Shore to become part of our community efforts as well. So residents do your part and support us as well. It will take all of us to make our goal of a community working together to be successful.
